

Express Shipping for International Students

Overview: University Express Mail System

eShipGlobal offers Universities a fast, secure and reliable web-based shipping software that enables small parcel as well as document shipping. Our solution provides shipment tracking, single invoicing for all carriers' shipments, rate shopping and seamless no hassle billing. eShipGlobal is a secure, Web-based shipping system that enables university employees who are spread across multiple campuses or locations to ship documents, and packages from any computer with Internet access.

What's New Information:

1. Immigration Document Shipping:

The University Express Mail Service by eShipGlobal has now been enhanced and allows Universities to ship recruitment materials at cheaper prices, maintain accurate reporting through automation, and work in a more collaborative way. Included in this system upgrade is an Immigration Document Shipping service tailored specifically for International Students transitioning out of the University system.

Students can now easily ship documents such as (OPT, EAD, H1-B etc) to immigration offices at a low cost and with minimal hassle thereby making the shipping process easy and simple.

2. Sunapsis Integration:

When it comes to tools that enhance the process of managing international student and scholar information Sunapsis is the industry leader. eShipGlobal has integrated with the Sunapsis system in order to provide a more comprehensive and effective system for Universities to manage international student shipment and logistics data.

3. Recruitment Material Shipping:

When universities or their recruiting agents are looking to send out bulk recruitment material to prospective students over seas there is no other system outside of UEMS that provides such a seamless and simple process. We have included complete support for recruitment material shipping, it's as easy as click and send!

Benefits for Your University:

- » Students can pay for their own shipping
- » Deeply discounted Express Rates 25% - 30% (FedEx, DHL, and UPS)
- » Eliminate Payment & Invoicing hassles
- » Online Tool no software installation
- » No need to process invoices from Carriers
- » Prepaid labels just click and send
