Stats:

Over 1000 University Departments Use UEMS

Over 600,000 Students have used UEMS

Overview: University Express Mail System

eShipGlobal offers Universities a fast, secure and reliable web-based shipping software that enables small parcel as well as document shipping. Our solution provides shipment tracking, single invoicing for all carriers' shipments, rate shopping and seamless no hassle billing. eShipGlobal is a secure, Web-based shipping system that enables university employees who are spread across multiple campuses or locations to ship documents, and packages from any computer with Internet access.

Benefits for Your University:

» Students can pay for their own shipping
» Deeply discounted Express Rates 25% - 30% (FedEx, DHL, and UPS)
» Eliminate Payment & Invoicing hassles
» Online Tool no software installation
» No need to process invoices from Carriers
» Prepaid labels just click and send

International Express Mail Services Features:

» Supports ESL, Study Abroad, and International Educational programs
» Students request materials and pay shipping costs
» Auto-generated pre-paid airway bills created by students ensures consistency and accuracy
» Available to over 220 Countries
» Easy to use reporting tools – Search by student name, date of birth, or tracking number
» Track through web, email, or phone
» Friendly customer service support
