

Beyond Borders

Expand your business beyond your borders

Beyond Borders seamlessly integrates with order management systems and shopping cart services to provide businesses with an easy-to-use shipping solution.

Beyond Borders Features:

- » Allows organizations that sell online and offline to ship packages point to point, all over the world: **any country to any country**
- » Import any address box within a few clicks!
- » Integrates with their product catalog/order management system
- » Compare carrier rates
- » Discounted shipping rates with FedEx, UPS, DHL and USPS

Beyond Borders Features (Cont.):

- » Prints all required documentation regardless of origin and destination
- » Integrated customs duties and tax calculator, allowing you to do it before hand rather than getting the invoice 1-2 weeks later
- » Multipiece shipments allowing flexibility to break down shipments into multiple pieces yet still be one shipment
- » Multiple payment options: credit card and invoicing
