Inbound Add-On Package

Inbound Shipping Solution

An add-on package that allows organizers, partners, suppliers and carriers to use your shipping solution, helping you to facilitate and manage inbound logistics: end-to-end.

The importance:

- » Managing multiple parties with multiple systems have made inbound shipping inefficient and cumbersome.
- » ERP systems can't offer a way to allow suppliers a platform for inbound shipping collaboration.

Add-on to:

eShipEnterprise:

- » A customizable business shipping solution for domestic and international shipping of small parcel and documents

Inbound Features:

- » Eliminate supplier wasted time and effort from faulty shipping documentation
- » Ability to limit supplier ability to ship based on certain rules
- » Eliminate fraudulent use of carrier account numbers
- » Real time collaboration between suppliers, buyers and carriers
- » Incorporates organization compliance procedures to enable supplier shipping compliance
- » Collects supplier shipping data

eShipLab:

- » A customizable hazardous material and dangerous goods shipping solution that is compliant with government regulations (IATA & DOT).
