

# eShip Warehouse

## Integrate, Scan and Ship with eShipWarehouse

Our eShipWarehouse shipping solution ensures accuracy, speed and compliance for all of your outbound shipments, domestically or internationally.

### **eShipWarehouse Features:**

- » Web-based solution, can be hosted behind a firewall
- » Integrates with business systems: authentication / ERP / order management / financial system
- » Integrates with scales / printers / scanners
- » Processes and print shipping labels and shipping documentation required for multiple carriers
- » Automated Export System (AES) filing

### **eShipWarehouse Features (Cont.):**

- » Consolidated invoicing
- » Consolidate multiple orders
- » Eliminate wasted time and effort from faulty shipping documentation
- » Handle both parcel and freight in one single system
- » Scalable - ship high volume orders
- » Reduced shipping costs

### **Add-on with:**

#### **Supply Chain Analysis:**

- » Analysis of your shipping data to gain more insight into your supply chain operation
